WHAT MAKES US DIFFERENT

We do everything to the tee. Then we *simulate* it.

Before anyone walks in, we've already run the night: the room at real size, a 50-person crowd, the drink line, the bathroom queue, where the jams happen. Every number we plan with is labelled confirmed, estimate or open.

LAYOUTS SIMULATED

To find a booth where people can stand behind you, Boiler Room style.

12

CROWDS PER FINALIST

Every top layout re-run with fresh crowds, so the answer isn't luck.

THE BRIEF

Build it. *Don't peak it.*

You're the first thing people hear. Take the room from people arriving with a drink to a full floor, then hand a warm room to Glamz at 11, who takes it on to HE//THEY.

01 **9:00–10:00** · arrivals. Groove first, room to talk. SUGGESTION

02 **10:00–11:00** · the floor fills. Lift toward garage and house.

03 **11:00** · hand off to Glamz, who plays solo until 12:15. Let's agree where you finish (BPM, key) so the handoff is clean.

04 **12:00** · the designed peak lands in Glamz's set: lights go red, the eyes come on.

05 **12:15** · HE//THEY closes: UKG, hard house / electro, bass house, mostly 134–140 BPM. That's where the night is heading.

Timings and handoffs are ours to agree together. Nothing here is a set list.
